DETAILED ACTION

1. This communication is responsive to the Amendment dated 3/9/2005.
2. Claims 1-28 are presented for examination.
3. Claims 1-28 are allowed.
4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
 - a. Sakamoto et al U.S. Patent Application Publication No. 2003/0030768 discloses the reflective layer covering the common line and the thin film transistor and corresponding to the reflective portion of the transflective type LCD.
 - b. Ha et al U.S. Patent Application Publication No. 2003/0058389 ("Ha") discloses the insulating layer on the reflective layer; a pixel electrode on the insulating layer at the pixel region, and the pixel electrode being transparent and connected to the drain electrode. However, "Ha" reference is the same assignee as current application.
5. The following is an examiner's statement of reasons for allowance:

Applicant's claimed invention distinguishes over the prior art for the following reasons. The claims are allowable over the prior art of record because none of the references, either alone or in combination, discloses or renders obvious the array substrate for a transflective liquid crystal display device comprising a reflective layer covering the common line and the thin film transistor

and corresponding to the reflective portion; an insulating layer on the reflective layer, the insulating layer having an open portion corresponding to the drain electrode; and a transparent electrode formed on a portion of the insulating layer and connected to the drain electrode and disposed in the pixel region.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
